Art Unit: 2153

1. Claims 1-12 are presented for examination.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1, 4, 7 and 10 are rejected under 35 U.S.C. 102(e) as being anticipated by Aras et al. [U.S. Patent No. 5,884,037]. Applicant submitted this reference.
4. Aras et al. disclosed (e.g., see Fig. 14) the invention substantially as claimed. Taking claims 1, 4, 7 and 10 as exemplary claims, the reference disclosed a bandwidth manager comprising:

a) means for receiving a bandwidth reservation request (1401) including a requested bandwidth capacity (e.g., see abstract (lines 16-18), col. 13 (lines 6-24));

b) means for storing available bandwidth capacity for each link in the ethernet network (e.g., see bandwidth reservation table 48, col. 13, lines 6-24);

c) means for reserving link bandwidth capacity (col. 13, lines 6-24) on a selected one of the plurality of paths based on the bandwidth reservation request and the available bandwidth capacity for each link in the selected one of the plurality of paths.

5. Claims 2-3, 5-6, 8-9 and 11-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The references are cited in the Form PTO-892 for the applicant's review.

A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) days from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).
